

This is a letter that I hope people with a vision impairment will read. I happen to be one of those people. I am legally blind with optic nerves damaged beyond repair. I am fortunate enough however to have come in contact with Enhanced Visions “Jordy”. A “Jordy” is a device that allows people with low vision to see things at a distance. Since I have been fortunate to have a

“Jordy”, it gets me away from the confinements of my CCTV (closed circuit tv). I have gone to movies, concerts, shopping, & in general sightseeing that I could not partake in before. It definitely broadens a low vision handicapped person’s life style. One need not be down hearted. Check this “Jordy” from Enhanced Vision out. It has made a difference in my life. It could yours also.
